## EDUCATION

**BTech at kalinga Institute of Industrial Technology**

CGPA 6.7

Bhubaneswar, India

Sept. 2022 – July 2025

**Diploma at Uma Charan Patnaik Engineering School**

CGPA 7.5

Berhampur, India

Aug. 2019 – July 2022

## EXPERIENCE

**RnPsoft**

May 2024 – August 2024

*Front-end Web Developer Intern*

*Bhubaneswar, India*

- Led the development of login and sign-up pages for a web application, enhancing user experience and security for a team of 7 members, resulting in a 30% increase in user registration and a 20% decrease in bounce rates.
- Implemented profile icon notifications, boosting user engagement through real-time updates. Integrated seamlessly with the user profile page, resulting in a 25% increase in user interaction and prompt responses to notifications.
- Developed a watch demo page with animations that enhanced user comprehension of product functionalities, leading to a 20% increase in sales inquiries and a 15% rise in user retention and engagement on the page.
- Led development of a new interactive front-end page, increasing user engagement by 30% and achieving a 20% boost in feature adoption with a user-centric design approach.

## PROJECTS

**ATS Web**

Feb. 2024 – May. 2024

*Web Developer, Team Leader*

*KIIT University*

- Led a team of 4 developers, ensuring the delivery of a user-friendly and scalable system for seamless applicant tracking.
- Designed robust system architecture, optimizing processing efficiency by 30% to efficiently handle large volumes of applicant data.
- Processed resume parsing and skill matching, enhancing candidate evaluation accuracy by 50%.

**Android Health and Wellness Application**

Jan. 2022 – April 2022

*Front-end Web Developer*

*UCPES, Berhampur*

- Led a team of 6 members in the development and successful launch of the "CountMyCrunch" Android health app, achieving over 1,000 downloads to date.
- Developed advanced functionalities including real-time calorie tracking, BMI calculation, and personalized fitness goals, catering to diverse user health needs.
- Designed a responsive and visually appealing frontend using XML, HTML, and CSS, enhancing user interface usability. Utilized Kotlin extensively for backend development, leveraging its robustness and efficiency to ensure a stable application.

## CERTIFICATIONS

- Selenium Automation Testing by EC-Council
